Journey

# Testimonials

## PATIENT

"Allison quickly became a trusted advisor in helping me sort through medical information and make decisions on my treatment plan...I cannot say enough about how Allison helped to make a challenging time a lot less overwhelming." - Heidi Ramich

## FAMILY MEMBER

"When my sister was diagnosed with ovarian cancer, my life changed forever. With every cloud there is a silver lining and we were blessed to have met Allison. She was compassionate and understanding...She kept us informed of what was going to happen and why it was happening." - Cynthia Lanciloti

## PROVIDER

"Allison is smart, experienced, and understands the complexities of health care. She excels at helping patients and families on their journeys through cancer care. She is a compassionate listener who patiently assists with difficult decision-making... I would welcome her guidance if I were seriously ill." Leslie Martin, MD

## DIAGNOSIS & TREATMENT

- Are you and your loved ones confused about your diagnosis?
- Is it difficult to make sense of the medical terminology?
- Are you concerned that you don't fully understand your treatment options?

## COMPLEX CARE

- Do you and your family feel anxious about your appointments?
- Do you want help formulating your questions and concerns?
- Would you like assistance coordinating care before surgery?

## CARE TRANSITIONS

- Are you struggling to figure out your next steps?
- Are you considering a transition to a nursing or rehabilitation center?
- Do you need help preparing for important conversations with loved ones?
